Description

Vae Victis issue 59:

The game is designed by Luc Olivier and Christophe Gentil-Perret.

It covers the 1st French Army offensive, whose aim was to flank the Vosges from the south and take control of the Haute-Alsace. One player takes control of the German forces and the other command the French.

The game uses the same system as Ardennes 1944 from issue 48.

As with all Vae Victis games, the counters need to be cut out and mounted.
