Description

BASTOGNE OR BUST is a single-map, regimental treatment of the Battle of the Bulge. This is a PLAYER'S game! Designed on purpose to be as much a warGAME as it is a (Danny Parker vetted) simulation. Referred to affectionately by wargamers as BOB, we like to refer to it as "The World's Finest Bulge Game." The designer addresses a number of issues common to most Bulge games, including:

- OFF BOARD MOVEMENT CHART [what happens to all those pieces that 'exit the map, and how does it affect the battle?]
- STACKING POINTS [one of the greatest mechanics of all time - why don't designers use it more often?]
- COMMAND & CONTROL [divisional bonuses for unit cohesiveness]
- SUPPLY DIFFERENCES [different effects on ALLIES vs GERMANS]
- INITIATIVE REWARDED [essentially, the 5-1 column on the CRT is gone]
- NO OVERRUN [squads held crossroads against regiments]
- NO WEATHER RULES [weather is reflected in air support]
- VON DER HYDTE [ALWAYS gets on the board]
- STREAMLINED PLAY [I don't need water allocation points]

So, what can you expect to be different in this new Designer's Edition from the previous 1st and 2nd Editions?

- one 'errata' change line within the rulebook (the obvious spelled out)
- 8 counters were errated to receive Road Bonus Movement status
- all Combat Engineer units may now repair/construct bridges
- all new DEC 10 & DEC 16 Tournament Scenarios
- 30-40 additional counters (new units per Danny Parker research, and DEC 10 scenario)
- new German OOA
- new Allied OOA

BASTOGNE OR BUST: Designer's Edition includes:

- 1 piece map
- Off Board Movement Chart and Turn Track card
- 616 large, thick die-cut counters
- 4 OOA/OOB set-up cards (Campaign, DEC 16, and DEC 10 scenarios)
- 2 Player Aid cards
- 20 pg rulebook
- the ubiquitous pair of D6
