Description

Excellent condition unpunched copy

Expansion for the Second World War at Sea series. Mostly for Bomb Alley. Black Sea Fleet will feature a 64 page scenario booklet with new scenarios taking place in the Black Sea with ships from Russia, Turkey and Romania. The module will contain 70 new long ship counters 140 standard-sized pieces.

New additions will include the battleships like Parizhaya Kommuna, Novorossisk and Sovietskaya Ukraina, the battle cruiser Sevastopol, several proposed aircraft carriers including the Varyan, plus cruisers and destroyers ranging from re-conditioned veterans of the Tsarist navy to the "Blue Beauty," the destroyer leader Tashkent. Romania will have cruisers, while Turkey fields the battle cruiser Yavuz plus the ships she tried to buy in the 1930s. Aircraft range from the PZL-11 fighter in Turkish service through Romanian Fi.167 torpedo bombers to the Soviet I-15 biplane fighter and IL-2 Sturmovik attack plane.
