The game system features innovative and interactive rules for Fire Combat, Close Combat, Morale, and Leaders. The game delivers a high level of tactical realism, yet is very playable.

In the game, you command a German or American infantry battalion, composed of three infantry companies and a heavy weapons company. Future expansion sets will include British, Soviet, Italian, and Japanese battalions. Unit types include:

- Leaders

- Rifle Squads
- Machine Guns
- Mortars

The game is not card driven; units are activated by company and platoon leaders. The game includes four geomorphic maps at a scale of 100 meters per hex. Extra maps will be available for separate purchase.
