### Description

Excellent Condition Unpunched Copy. A hint of staple rust, very light creasing.

Blitzkrieg '41 is a two-player strategic level wargame of the German invasion of the Soviet Union in 1941. It was the first game that was included in Command magazine (#1).

The game includes a 20 page rulebook, 200 counters, and a 22"X34" mapsheet which contains a map plus charts and tables for both players.

Victory conditions are quite extensive (over a page of rules) and, because of the great number of draws that the game will produce (the historical result), the designer recommends playing multiple games for total points.
