### Description

Hougoumont is a tactical level simulation of the fight for Hougoumont chateau during the battle of Waterloo.

Game scale : each hex is 25 yards, each turn 10 mins of real time, each unit is a company. Movement and combat is combined into action points. Non-phasing player has the option to react resulting in "Boom & Zoom" tactics.

Victory revolves around the capture of Hougoumont. Rules include climbing walls, breaking and barring doors, howitzers and command control.

Med complex, 200 counters.
