Description

Elusive Victory is a stand alone game that utilizes the Downtown game system to simulate the three major air conflicts which occurred in the Middle East from 1967 to 1973:

- The Six Day War of 1967 – starting with a devastating surprise attack, the Israelis totally dominate the air war.
- The long War of Attrition from 1967 to 1970 – the Israelis remain superior, but the Egyptians began to markedly increase their capabilities.

· The Ramadan or Yom Kippur War in October 1973 - the Israelis have to desperately fight back to overcome massive Egyptian radar and SAM defenses and reassert air superiority after suffering heavy initial losses.

COMPONENTS
