Description

Excellent part-punched copy. counters have been bagged. minor ware to box. content been well looked after by previous owner.

Landships! Tactical Weapons Innovations 1914-1918 covers the Great War at its lowest level. The 420 playing pieces represent infantry platoons and cavalry squadrons, or a single tank or gun. Each turn is around 5 minutes and a hex on the eight geomorphic map sections is about 100 meters. Easy to play rules with over 20 scenarios get you started right away. Trace the story of the combat during the war; from the simple slaughters of 1914 to the sophisticated combined arms offensives of 1918."

Nominee for the 1994 Charles S. Roberts awards for Best Pre-World War II Boardgame (Charles S. Roberts Awards).
