Description

This is a collection of 10 (one each) that were previously released in the pages of Schwerpunkt Volumes 11 through 20. This volume of Rally Point is aimed at those ASL players who do not already own Schwerpunkt, but who want to sample some of our best scenarios. This pack does not contain any new scenarios, so if you already own Schwerpunkt, you already have these scenarios and there is absolutely no reason to buy this product.

Each of the 10 scenarios is printed on cardstock in Schwerpunkt's easy-to-read format. These scenarios are in keeping with the Schwerpunkt tradition of tournament-sized as well as medium-sized actions. There's something in this pack for players of all experience levels!
