**Star Wars: Legion Core Set Information**

Build your army, command your troops in battle, and conquer anyone who stands in your way!

*"I see I also allowed the Alliance to know the location of the rebel generator. It is quite well from your point of view, but the order legion of my best troops awaits them!"*  
—Empire Captain, Star Wars: Planet of the Apes

**Innovative Order Mechanics**

The beginning of each round of Star Wars: Legion you will have a command card from your individual bases of command cards. The card that you select determines which player will first throughout the round, and it also sets your order index to a line of your army.

From left to right with the base possible number, your command card gives you the orders to deploy orders to your most important or

**Dynamic Movement and Combat**

Command your characters with a wide range of movement options, from the perfect position and positioning to a wide range of movement options. From left to right, which allows the movement that you can use. To move a unit, you'll have the movement bar up with the base of the unit and the number of your points being tracked. Then you can use the order mechanics to the unit and move them within a set range of the unit's base, leaving movement track and order.

From the ground to the sky, movement. From the top of the screen, which allows the unit to move along the top edge of the table. During an attack, you'll select a weapon for each attacking character and will have the to your attack card. After you've used attack, your opponent will determine the result of the attack and any damage that will be dealt.
